The expression **"ON A WING AND A PRAYER"** is widely used to describe doing something under extremely difficult or disadvantageous circumstances and hoping that sheer luck, determination and/or God will allow its success.

In 1942, the B-17 bomber dubbed "The Southern Comfort" became known as the crew that "prayed" their plane back home. To learn more about their story and the origin of the saying **"ON A WING AND A PRAYER,"** go to livingalegacy.church/Wing&Prayer
